

Bullying

At OKC's recent Child Safety Awareness Seminar, held during the week of September 23rd, we discussed the issue of Bullying as part of that training. We thought the following websites might be helpful to our parents – whether it is your child who is being bullied OR your child is the bully. We hope this will help!

www.stopbullying.gov – this is a very informative site and one we referenced for our presentations.

www.apa.org - this is a menu driven site that allows you to look up bullying/cyberbullying specifically

www.kidshealth.org – a menu driven site that directs you to how to deal with bullying issues

www.networkforphl.org/anti-bullying_laws - this site provides the laws addressing bullying, state-by-state.
